Will Be at Celebration.
New Wilson, Okla., Oct. 25.—(Special.)—President John Ringling of the O. N. M. & P. railroad, Vice President Jake Hamon and Superintendent

Richardson, together with their wives, have accepted invitations to be present on the night New Wilson celebrates the induction of waterworks and electric lights. The date is set for November 4. An elaborate program will be carried out, including exercises at the Yale opera house, followed by a waterworks display and banquet. The railroad officials named, as well as some others yet to be seen, will be guests of honor. Wilson is well and widely advertised as a cotton market. Yesterday cotton was bought by local business men, who paid as high as 18.10. R. L. Bates, living a few miles east of New Wilson, sold the first bale of the season at 18 cents; shortly after that the market advanced 10 points and remained steady to the close.

A very large power house of big capacity has been contracted for in the Healdton-Wilson oil field, to be constructed of brick. URGES PARENTS TO TEACH PUNCTUALITY

Superintendent Richards has issued the following statement to parents whose children are establishing bad records in school:

"I wish to call the attention of parents to one matter connected with our schools which is causing myself and teachers considerable worry and in which I believe every parent will feel a lively interest. The matter to which I refer is that we are having a large number of pupils who are tardy in the different schools from day to day. This is not only annoying but it is ruining the record of the different schools. I believe that

every thinking parent realizes that punctuality is one of the important elements in success in life. I believe further, that every parent realizes that the habits that children form in youth will go with them through life and will determine the destiny of the child for success or failure. I believe, also, that parents realize that the child is very largely a creature of imitation and that the child will do in large part those things that he sees others do. This fact should cause parents not only to be punctual themselves but to see to it that their children form habits of punctuality while they are in school. For their own sakes and for the sake of the good name of the schools, I therefore urge every parent to co-operate with the teachers and the schools in every way possible and let us see if we cannot eliminate tardiness from the public schools of this city. I make this personal appeal to every parent, hoping that they may realize the responsibility and give us the desired assistance."
